

*Energy bills are
out of control*

**KEVIN HERTEL
IS FIGHTING TO
LOWER THEM**

THE PROBLEM

Because of constant rate increases, coupled with tariffs and reckless actions from Washington, Michigan families are being slapped with out-of-control energy bills.

*Kevin Hertel is working to end
constant utility rate hikes.*

THE SOLUTION

To tackle these skyrocketing costs head-on and give Michigan families the relief they deserve, Kevin has introduced legislation in the Michigan Senate that would delay how often utility companies can raise rates, freezing rate hikes for three years and giving residents real savings on their energy bills.

WHAT YOU CAN DO

Learn more at SenatorKevinHertel.com/energy-costs and add your name to the growing list of people who are fed up with increasing energy bills and just want real solutions — not more political posturing.
